HIGH SCHOOL NETWORKING

Effective implementation of an Equitable Multi-Level System of Support in high schools leads to improved student learning and outcomes (Freeman, J., Simonsen, B., McCoach, D.B., Sugai, G., Lombardi, A., Horner, R. 2015). This is an opportunity for high school practitioners to connect with other high schools and share strategies that work. Resources will also be shared that are specifically geared towards implementation within the high school context.
