

Your Rtl Center TACs (PBIS and Rtl), and CESA representatives have been meeting, and trying to determine what we can do to best meet your needs, with a goal of sustaining solid implementation. To be responsive to the feedback we have received about your needs and availability, we are offering the following...

Date: January 22, 2016
8:30-3:30

1. In place of the previously scheduled Tier 1 Networking and Integrated Technical Assistance events, we will be hosting a full day of supported work time for teams or individuals. While there will be some opportunities to network with other schools around strengths and barriers, the majority of the time will be for teams to have supported work time. Both Academic and PBIS technical assistance coordinators will be there to answer questions and provide resources as needed. The focus of your work is completely up to you. This will be a drop-in day. School teams, district teams, or individuals are welcome to stay for all or part of the day. The agenda is below:
 - ◆8:30-9:30: Facilitated conversation/networking around strengths/barriers that schools have experienced.
 - ◆9:30-12:00: Supported work time-we will be there to answer questions and provide resources as you need.
 - ◆12:45-1:45: Facilitated conversation/networking around strengths/barriers that schools have experienced.
 - ◆1:45-3:30: Supported work time-we will be there to answer questions and provide resources as you need.
2. PBIS Tier 2 Booster/Networking opportunities will remain available, as listed on the CESA 2 event calendar.
3. To help us further determine needs/barriers and best mechanism for support, we will be sending, in a separate email, a brief Google Survey. When you receive this, please take a few seconds to complete the survey, as it really will help us determine how we can better meet your needs!
